THE operations of the Societies of the two Register Books of Shipping printed for the use of Merchants, Ship-Owners, and Underwriters, having ceased in the year 1834, this Society was established for the important purpose of obtaining a faithful and accurate Classification of the Mercantile Marine of the United Kingdom, and of the Foreign Vessels trading thereto, and for the government of which the following Rules and Regulations have been from time to time adopted.

2. A Register Book to be printed annually for the use of Subscribers.

3. Each person subscribing the sum of Three Guineas per annum (or such other sum as the General Committee may fix), to be considered a Member of the Society, and entitled *for his own use* to one copy of the Register Book.

4. The subscription of Public Companies, or Public Establishments (not being engaged in Marine Insurance), to be Ten Guineas per Annum.

5. The subscription of Marine Insurance Companies to be regulated by the Committee on special application, in each case, but not to be less than Ten Guineas per Annum.

6. The Register Book to be periodically posted throughout the year.

7. For the convenience of Subscribers not resident in London, a Supplement, containing the additions to, and corrections made in, the Register Book, to be printed fortnightly in such convenient form, as to admit of its transmission by Post, so that such parties may be furnished, from time to time, with the latest and most complete information.

8. The superintendence of the affairs of the Society to be under the direction of a Committee in London, of twenty-four members, consisting

of an equal proportion of Merchants, Ship-Owners, and Underwriters. The Chairman for managing the affairs of Lloyd's, and the Chairman of the General Ship-Owners' Society, and also the Chairman and Deputy Chairman of the Liverpool Committee, and the Chairman of the Rotation Committees for the time being, to be, *ex officio*, Members of the Committee.

9. Six of the members, namely, two of each of the constituent parts of the Committee, to go out annually by rotation, but to be eligible to be re-elected.

10. The vacancies so arising to be filled up by the election of two Underwriters and one Merchant by the Committee for managing the affairs of Lloyd's, and two Ship-Owners and one Merchant by the Committee of the General Ship-Owners' Society.

11. The Committee to appoint from their own body, annually, a Chairman and Deputy Chairman, and also a Chairman for a Sub-Committee of Classification.

12. The Committee to appoint a Sub-Committee of Classification, to be so regulated that each Member of the General Committee may, in rotation, take his turn of duty therein throughout the year.

13. The Secretary, Clerks, and Servants of the Society, and the Surveyors for London, Liverpool, and the other Outports, to be appointed by, and be under the direction of the General Committee.

14. Special meetings to be convened by order of the Chairman, or Deputy Chairman, or on the requisition of any three members.

15. All elections and appointments to be made by ballot.

16. No member of the Committee to be permitted to be present on the decision of the classification of any ship of which he is the owner, or wherein he is directly or indirectly interested.

17. The Committee to be empowered to make such By-laws for their own government and proceedings as they may deem requisite, not being inconsistent with the original Rules and Regulations under which the Society was established; but no new Rule or By-law to be introduced, nor any Rule or By-law altered, without special notice being given for that purpose at the meeting of the Committee next preceding that at which such Motion is intended to be made; such notice to be inserted in the summons convening the meeting. No new Rule, or alteration in any existing Rule, materially affecting the classification of ships to take effect until the expiration of six months from the time it shall have been determined upon.

18. All reports of survey to be made in writing by the Surveyors according to the forms prescribed, and submitted for the consideration of the

General Committee, or of the Sub-Committee of Classification ; but the classing assigned by the latter to be subject to confirmation by the General Committee.

19. The reports of the Surveyors, and all documents and proceedings relating to the classification of ships, to be carefully preserved, and parties proving themselves to be interested therein, to have access thereto under the directions of the Chairman or Deputy Chairman.

20. Foreign ships, and ships built in the British possessions abroad (*See also Section 51*), to be surveyed on their arrival at a port in the United Kingdom ; but a due regard is to be had to the circumstance of their having been exempted from the supervision while building to which all British ships are subjected, and the class to be assigned to them is to be regulated according to their intrinsic quality, and from the best information the Committee can obtain.

21. In every case in which the class assigned to a ship may be proposed to be reduced, notice is to be given in writing to the Owner, master, or Agent, with an intimation that if the reduction be objected to, the Committee will be ready to direct a special survey, on the Owner, master, or Agent agreeing to pay the expenses attending the same, provided on the said survey there shall appear sufficient ground for the proposed reduction.

22. When the Surveyors consider repairs to be requisite, they are respectfully to communicate the same in writing to the Owner, master, or Agent and if such repairs be not entered upon within a reasonable time, a corresponding report is to be made to the Committee for their decision thereon.

23. Parties considering the repairs suggested by the Surveyor to be unnecessary or unreasonable, may appeal to the Committee, who will direct a special survey to be held ; but should the opinion of the Surveyor be confirmed by the Committee, then the expense of such special survey is to be paid by the party appealing.

24. The Surveyors to the Society not to be permitted (without the especial sanction of the Committee), to receive any fee, gratuity, or reward whatsoever for their own use or benefit, for any service performed by them in their capacity of Surveyors to this Society, on pain of immediate dismissal.

25. The Surveyors will be directed to attend on special surveys of ships under damage, or repairs for Restoration, when required by merchants, Ship-Owners, or Underwriters ; the charge for which is to be regulated according to the nature and extent of the service performed. In all cases, the application for the assistance of the Surveyors must be made in writing addressed to the Secretary.

## FUNDS.

26. The Funds to be under the authority and control of the Committee, and a statement of the Receipts and Expenditure to be annually printed for the information of the subscribers.

27. The following Fees to be charged to the Owners of ships prior to their vessels being classed and registered in the book.

## RULES FOR CLASSIFICATION.

31. The Rules and Regulations for the classification of ships, which were originally framed after much labour and deliberation, aided by the valuable practical knowledge of the Committee of the General Ship-Owners' Society, having been revised and considerably modified, the following have been determined upon as well calculated to meet the fair claims of all parties interested in their application.

32. The characters to be assigned to ships to be, as nearly as possible, a correct indication of their real and intrinsic qualities, and to be in all cases fixed (not by the Surveyors, but) by the Committee, after due consideration of the Reports of the Surveyors and such other documents as may be submitted to them.

### FIRST CLASS SHIPS.

#### *First Description of the First Class,*

33. Will comprise all ships which have not passed a prescribed age,\* provided they are kept in a state of complete repair and efficiency: and they will be designated by the letter A.

34. The period to be assigned for their continuing on this Class to be determined with reference to the original construction and quality of the vessel, the materials employed, and the mode of building; and their continuance for the time so assigned to depend upon its being shewn by occasional surveys (annually if practicable) that their efficiency is duly maintained. The characters of ships classed A for a term of years, will in future be struck out of the Register, unless such ships shall be brought under survey within a period in no case exceeding one-half of that originally assigned for their remaining in that class. After the expiration of the periods prescribed, ships will be permitted to remain on the List of the First Description of the First Class, or be restored thereto, for a further limited period, subject to the conditions hereinafter shewn in Sections 54, 55, and 57.

35. New ships are to be surveyed while building, by the Surveyors to this Society, in the following three stages of their progress, or they will be liable to lose one year of the period to which they might otherwise be entitled. (*See Section 53.*)

*First.*—When the frame is completed.

*Second.*—When the beams are put in, but before the decks are laid, and with at least two strakes of the plank of the ceiling between the lower deck and the bilge unwrought, to admit of an examination of the inner surface of the plank at the bottom.

*Third.*—When completed, and, if possible, before the plank be painted or payed.

\* See the Tables of Timbering, &c. Nos. 1, 2, and 3.

36. A full statement, agreeably to Form No. 4, of the dimensions, scantlings, &c. of all new ships, verified by the builder, is to be transmitted by the Surveyor, and to be kept as a record in the office of the Society.

### RULES TO BE OBSERVED IN BUILDING SHIPS.

#### TIMBERING.

37. The whole of the timber to be of good quality, of the descriptions hereinafter shewn in a Tabular Form, No. 1, as applicable to the several terms of years for which ships so constructed may respectively be appointed to remain on the List of the First Description of the First Class: the stem, stern post, beams, transoms, apron, knightheads, hawse timbers, and kelson of ships claiming to stand *twelve years*, to be entirely free from all defects; the frame to be well squared from the first foothook heads upwards and free from sap, and likewise below, unless the timber be proportionably larger than the scantling hereafter described; every alternate set of timbers to be framed and bolted together to the gunwale. The butts of the timbers to be close, and not to be less in thickness than one-third of the entire moulding at that place, and to be well chocked with a butt at each end of the chock. In all cases in which the heads and heels of the timbers shall be *square*, in vessels intended for the twelve years' grade, a dowel must be introduced into the ends of such timbers in order to connect them together.\*

#### I.—THE SCANTLINGS TO BE NOT LESS THAN AS FOLLOWS:

38. The intermediate dimensions for the scantling of timbers between the floor heads and the gunwale to be regulated in proportion to the distance from the two points. Should the room and space be increased, the siding of the timbers to be increased in proportion. Whenever ships are built with *double floors*, some thick planks, not less than three, must be worked inside on the upper and lower floor heads, and be well bolted through and clenched. The plank outside from the wales to the lower floor heads, in vessels of 500

\* In the construction of poops and top-gallant forecastles the timbers must be of the same materials as are required by the Rules (Table No. 1), for the upper part of the frames of ships, according to the several terms of years appointed for such ships to remain on the first description of the first class. The outside planking of the forecastle and the sheerstrakes, planksheers, shelf or clamp, and waterways, and beams of poops and forecastles must be likewise of the materials required by the Rules for the topsides of the said ships. The remainder of the planking of the poops may be of fir of good quality.

And to be sided	...	...	...	...	9 in.	13 in.

40. Those at the after-end of the ship to be reduced in proportion to their length.

41. The deck and hold beams to be sufficient in number,\* and securely fastened to the sides either with lodging knees of iron or wood, or with shelf pieces; or with a shelf piece and knees: or with some other security equal thereto, so as sufficiently to connect the ends of the beams to the sides of the ship: and, in addition, all vessels of 200 tons shall have at least six *vertical* knees on each side to the DECK beams; and for every additional 50 tons measurement above 200 tons they shall have one more hanging knee on each side. And ships of 400 tons shall likewise have to their HOLD beams at least eight vertical knees, either as standards or hanging knees (the latter being preferred), and for every additional 100 tons burthen, they shall have one more to each side.† Ships having a depth of hold, measured from the limber-strake to the under side of the lower deck beam, *above* thirteen feet but not exceeding fifteen feet, must be secured with iron riders, in number and description such as are prescribed by the Rules, section 62, or by orlop beams, sufficient in number and properly secured. Ships *exceeding* fifteen feet depth of hold, will be required to have orlop beams; the number to

\* As regards the spacing of Beams, it appears to the Committee that the following scale would in general meet the convenience of stowage in all trades, as well as secure the requisite transverse strength, so essential to be attended to according to the tonnage of the vessel.

The spaces between the beams (hatchways excepted) not to exceed the following distances.

	Hold Beams.	Deck Beams.
Vessels under 200 Tons .. ..	8 feet	4 feet.

be in no case less than one-half of the number of lower deck beams in the space between the fore-mast and the mizen-mast. The application of this rule to colonial and fir built ships will not exempt them from the full operation of the Rules, section 62. Every ship exceeding 150 tons to have at least one crutch for the security of the heels of the after-timbers of the frame; one pair of pointers in addition to a knee at each end of the wing transom to connect the stern frame with the after-body of the ship; and a transom over the heels of the stern timbers properly kneed. The heels of the cant timbers forward and aft to be stepped into or on the deadwood, and bolted through.

42. Shifts of timber in ships of 200 tons and upwards, to be not less than one-seventh of the main breadth; and in ships under 200 tons, to be not less than one-sixth of the main breadth.

#### PLANK.

43. The outside planking to be of good quality, of the description prescribed in the Tabular Form, No. 2, hereinafter shewn, and to be clear of all defects.

44. The inside planking to be of the description shewn in the Tabular Form, No. 3, and free from all foxy, druxy, or decayed planks. The whole to be properly shifted and fastened.

45. No butts to be nearer than five feet to each other, unless there be a strake wrought between them, and then a distance of four feet will be allowed; and no butts to be on the same timber, unless there be three strakes between, as more particularly shewn in the diagram annexed (*see Plate No. 3*); but vessels under 200 tons will be exempted from the full operation of this rule; and in ships of larger tonnage a literal compliance with it will be dispensed with in cases wherein it may be satisfactorily proved that the departure from the rule is only partial, being confined to the ends of the ship, or the thin planking of the topside, and does not injuriously affect the ship's general strength; but such relaxation will not be sanctioned unless an accurate description of the shifting of the plank be transmitted by the Surveyors, to enable the Committee to form a proper judgment on the case.

#### FASTENINGS.

46. The treenails to be of good quality, and of a description of wood *equal to the best material* through which they are to pass. They are to be circular, being either engine-turned, compressed, or planed. All planks above nine inches in width are to be treenailed double and single, except bolts intervene; and if less than that width, then to be treenailed single, and at least one-half of the treenails must go through the ceiling. All ships to be fastened with at least one bolt in every butt, and from the wales to the lower part of the bilges the bolt to be through and clenched. The bilges to be secured with bolts so placed that from the foremast to the mainmast in ships under 300 tons there shall be at least one bolt through and clenched in each *first* foothook; and that in ships of 300 tons and upwards there shall be at least *two* bolts through and clenched for each set of timbers in one or other of the thick bilge strakes. The limber strakes to be bolted down to the floors, and one bolt in every floor to be through and clenched. Ships otherwise entitled to stand *higher* than the **TEN YEARS** grade, in which the whole of the outside fastenings above the floor heads, including

those of the flat of the upper deck, shall consist of copper or mixed metal to the entire exclusion of iron bolts, nails, and treenails, and in which no iron bolts are used below the floor heads, shall be allowed an additional period of Two Years. And Ships otherwise entitled to stand *higher* than the TEN YEARS grade, in which treenails may be used in fastening the plank, but in which *all* the Bolts,\* and also nails of the flat of the upper deck, shall be of copper or mixed metal, to the entire exclusion of iron, shall be allowed an additional period of One Year. In all such cases of substitution, the number of bolts must be the same as is already prescribed as above for treenails; the proportion† of *through* and short bolts must be one of the former and two of the latter alternately, so that the *through* bolts may be placed in succession on each edge of the plank, and all the through bolts must be of malleable metal, and clenched on rings (of the same metal) inside. The sizes of the copper or mixed metal bolts must be as under, *viz.*

The sizes of bolts for vessels of other tonnage will be found more fully described, page 25, and also *Plate No. 4.*

47. In every case where the butt and bilge bolts are not through and clenched, One Year will be deducted from the period which would otherwise be assigned in the classification of the vessel; but this Rule will not be applied to ships built previously to the 1st January, 1835.

48. The scantlings and dimensions for all intermediate sized vessels to be proportionately regulated, agreeably to a scale adopted by the Society, a copy of which is in the hands of each of the Surveyors. *See Plates Nos. 1 & 2.*

49. Ships surveyed while building, in which *all the materials required for a Twelve Years' Ship shall have been used*, and most of the other requisites for that class fulfilled, but which, from partial deficiencies, may not appear to be in all respects entitled to the highest class, although superior to the description of a Ten Years' ship, may be marked in the Book thus, 11 A; thereby denoting that they are to remain in the First Description of the First Class *Eleven Years*, provided they be kept in a state of efficient repair.

50. Ships surveyed while building, in which the scantling and shifts of the timbers, the thickness and shifts of the planks, and size of fastenings may be the same as are required by the preceding rules, and in which the description of materials prescribed in the annexed Tables shall also have been used, but in which the *alternate* sets of timbers shall not have been framed, nor the chocks wrought with a butt at each end, nor the frame so well squared as is required for Twelve Years' ships, but which shall be *in other respects* equal thereto, shall be marked "10 A;" thereby denoting that they are to remain on the List of Ships of the First Description of the First Class *Ten Years*, provided they be kept in a state of efficient repair.

51. In all other cases, ships surveyed while building, and constructed of the materials of good quality, hereinafter shewn in the Tables Nos. 1, 2, and 3, will be classed for the several terms of years respectively appointed for their remaining on the List of Ships of the First Description of the First Class.—All ships, *not built under Survey*, whether in the United Kingdom or abroad for which a class may be claimed, shall be required to have *their timbers completely exposed for examination, by a listing or plank being taken out* (if not originally left open) all fore and aft at the foothook heads, and another between decks; and a few treenails must likewise be driven out, so

that the Surveyors, from actual inspection, may be satisfied whether or not they are of the quality and make prescribed by the Rules, and the material of the frame and the quality of the treenails being thus ascertained, the same shall be reported to the Committee, and a class assigned accordingly.

52. Ships built in the United Kingdom under a roof, and which shall have occupied a period of not less than twelve months in their construction, will have One Year added to the period prescribed for their continuing on the List of Ships of the First Description of the First Class.

53. Ships built in the United Kingdom since the year 1834, and *not surveyed while building* by the Surveyors to this Society, or where the owners or builders may have refused to permit them to survey and examine the same at the several periods prescribed by the Rules, will be subjected to the minutest possible examination previously to assigning the class in which they may be placed according to the regulations; but in all such cases One Year will be deducted from the period which would otherwise be allowed, in consequence of their not having been submitted to such survey during their construction. In no case, however, will a higher grade than 10 A be assigned to ships built in the United Kingdom, which shall not have been surveyed while building.

#### CONTINUATION OF SHIPS IN THE FIRST DESCRIPTION OF THE FIRST CLASS.

54. If, on the termination of the period of original designation, or if at any subsequent period within the limitation hereafter mentioned, a Ship-Owner should wish to have his ship remain, or be replaced on the letter A (*vide section 87*), he is to send a written notice thereof to the Secretary, and the Committee shall then direct a Special Survey as follows to be held, consisting of not less than *two* competent persons to be appointed by the Committee, one of whom shall be a Surveyor the exclusive servant of the Society, namely,

##### SURVEY.

For the purpose of facilitating such survey, the ship shall be either placed in dry dock or laid on the ways, and the upper works from the lower part of the wales to the upper part of the sheerstrakes, shall be scraped so as to expose the surface of the plank to view. The attention of the Surveyors shall then be particularly directed to the state of the upper or main deck and comings, the upper and lower deck bolts, and the outside planks through which they pass, the *planksheers*, waterways, and beams, so far as they can be examined; the hawse timbers, knightheads, breasthooks, and transoms; the floors and *kelsons*; the planking outside, and the *treenails* passing through from the light water mark upwards; the ceiling inside, and the frame and inner surface of

the outside planking where it may be seen; and the sheer and general form of the ship; *and should any suspicious treenails or bolts appear, the same are to be driven out for inspection.* The Surveyors on these points shall transmit to the Committee a detailed report, accompanied by such observations as may occur to them, either from inspection of the ship, or from information of the repairs she may have received. If from the report of such special survey the ship shall appear to be in a sound and efficient state, and to have preserved her original form unaltered, the Committee shall continue such ship on the letter A for such further period as they may think fit, not exceeding, however, one-third of the number of years which had been originally assigned. Ships so continued shall be distinguished in the Register Book by the number of years for which the classing is extended, being inserted separately under the number assigned on the original classing, thereby denoting that the ship has been found on survey in such good and efficient order as to entitle her to be continued                      years longer on the List of ships of the First Description of the First Class. The period assigned for continuation, will, upon all occasions commence from the time the ship may have gone off the letter A, without regard to the date when the survey for this purpose may have been held.

In cases of the repair of ships for continuation of character under the Rules, section 54, (*but in no other*) materials of an inferior description (but not below those prescribed for the six years' grade) may be permitted to be used in those parts which must of necessity, under the operation of the Rules, section 56, be *entirely removed* on a repair for restoration; subject, however, to the ship-owner, in every instance, making a special application to the Committee for their previous sanction.

## RESTORATION OF SHIPS TO THE FIRST DESCRIPTION OF THE FIRST CLASS.

### FIRST RULE.

55. If, at any time before the expiration of two-thirds of the number of years *beyond* the period for which ships may have been originally assigned to remain in the First Description of the First Class, an owner be desirous to have his ship restored to the List of Ships of that description, such restoration (on his consenting to the special survey hereinafter described, to be held by two Surveyors, and performing the repairs found requisite) will be granted for a period not exceeding two-thirds of the time originally assigned for her remaining as a ship of the First Description of the First Class, the same to be calculated from the date of such repairs.

*Requisites for Restoration.*

56. All the bolts in the range of each deck to be driven out, and the planks taken out; the upper deck waterways, and planksheers and spirketting, and the strake next the waterways on the lower deck in the midships to be taken out; the sheathing to be entirely stripped off the bottom; a strake in the upper course of the bottom, between the wales and the light water-mark fore and aft, and a plank in the ceiling at the floor heads on each side, to be taken out, the limbers to be clear, and the hooks forward to be exposed; and in that state the ship to be submitted to a special survey and examination, at which the attention of the Surveyors appointed by this Society is to be particularly directed to the state of the decks, the remaining plank of the topsides, the wales, upper courses, and treenails, and other fastenings; also to the state of the frame, hawse timbers, and knightheads, kelson, floors, foothooks, ceiling, and breasthooks, the rudder in all its parts and hangings; and if, after such examination, the Owner should consent to take out all planks, timbers, beams, knees, waterways, fastenings, and other parts that may be found defective, or objected to, and replace them with materials of the same species, or of equal quality with those of which the ship was originally constructed, such ships to be entitled to restoration to the First Description of the First Class, for a period proportionate to their real condition and the extent of the repairs performed; or if timber of an inferior description, or second-hand English or African Oak or Teak be used, then for a period not exceeding that for which such materials would have entitled a new ship to stand A 1 according to the tables, subject in either case to the ship being at all times thereafter kept in a state of efficient repair.

## SECOND RULE.

57. If, at any Age of a vessel, an owner be desirous to have his ship restored to the First Description of the First Class, such restoration (on his consenting to the special survey hereinafter described, to be held by two Surveyors, and performing the repairs thereby found requisite) will be granted for so long a period as may be deemed expedient by the Committee, not exceeding, in any case, the term of eight years.

*Requisites for Restoration.*

58. The whole of the outside plank of the vessel to be taken off as low as the second foothook heads, and the remainder of the planking, either outside or inside, together with all the decks, to be removed, so as to expose the timbers of the frame entirely to view, and in that state the ship to be submitted to a special survey and examination by the Surveyors appointed by

this Society; and if, after such examination, all timbers, beams, knees, kelsons, transoms, breasthooks, remaining plank, inside or outside, or other parts found to be defective, be replaced with materials of the same species, or of equal quality with those of which the ship was originally constructed, and all the treenails driven out and renewed, such ship may be restored to the First Description of the First Class. But if timber of an inferior description, or second-hand English or African Oak or Teak be used, then for a period not exceeding that for which such materials would have entitled a new ship to stand A 1 according to the tables, subject, in either case, to the ship being at all times thereafter kept in a state of efficient repair.

59. On the same principle of giving to ships which shall be actually proved to be superior of their class, and in excellent condition, every advantage that can be extended to them consistently with the maintenance of the general principles on which the Society was established, ships which have been *restored* to the Class A shall be entitled to an extension of the time, subject to the same conditions of survey and examination as are prescribed for ships proposed to be continued in the First Description of the First Class, at the expiration of the period first assigned to them; but in like manner, the term of such extended continuance shall be limited to a period not exceeding one-third of the number of years for which the ships may respectively have been *restored*, without any reference whatever to the period originally assigned to them.

### FIRST CLASS SHIPS.

#### *Second Description,*

60. Will comprise all ships which having passed the prescribed age, but have not undergone the repairs which would have entitled them to be continued in or restored to the First Description, or having been continued or restored, and the additional period thus assigned having expired, shall appear on survey to be still in a condition for the safe conveyance of dry and perishable cargoes, and they will be designated by the diphthong character, *Æ*. (*See also Section 87.*) Such ships, however, of this class as shall be found on survey to be of superior description, *being fit for the safe conveyance of dry and perishable goods to and from all parts of the world*, shall be distinguished by inserting their characters in Red with an asterisk thus prefixed, \**Æ*.—*But in all cases in which an Owner may claim this distinction, the ship, to entitle her to it, must undergo a special survey by two surveyors, to be appointed in every instance by the Committee, and be subject to a compliance in other respects with the requisitions prescribed by the rule, section 54.*—Those ships, however, the

original construction of which may not have entitled them to be classed in the First Class A for a longer period than Five Years, will not be allowed the distinction of the asterisk.

61. For the purpose of continuing a ship on the List of Ships of the Second Description of the First Class, a careful survey will be required to be made annually, or on the return of the ship from every foreign voyage, by one of the Surveyors to this Society, who is to state distinctly and separately the actual condition of the *upper deck fastenings, water-ways, spirketting, planksheers, topsides, upper deck with its appendages, lower deck fastenings, wales, counter, plank, and treenails outside to the water's edge, rudder, windlass, and capstan, beams, breasthooks, transoms, and timbers*; but if not surveyed within twelve months after entering the Second Description of the First Class, such ship having been during that time in some port in the United Kingdom, the character will be omitted until such survey be held; or, as the case may be, she will be allowed to pass into the class E. Whenever it shall appear to the Surveyors that a vessel classed *Æ* with the asterisk shall no longer be in a condition to deserve that distinction, notice of the proposal to reduce her shall be given *in writing* to the Owner, Master, or Agent, in the same manner as is prescribed by the rules, section 21, page 7.

#### BRITISH NORTH-AMERICAN BUILT SHIPS, AND FIR SHIPS.

62. Ships built in the British North-American Colonies, and all ships wherever built, the frames of which are composed of *Fir*, of 300 tons and above, shall, in order to entitle them to be classed in the Register Book of the Society, be secured in their bilges by the application of iron riders to cover the joints of the floor and foothook heads, to extend from the height of the hold beams to the floors so as to receive not less than two bolts in a substantial part of the floors; the number of iron riders to be not less than one on every fourth floor on each side from two feet abaft the mainmast to two feet abaft the foremast, the size thereof to be not less than  $3\frac{1}{2}$  inches by  $1\frac{1}{2}$  inches at the joints of the timbers for ships of from 300 to 400 tons, and to be increased *one quarter of an inch each way*, for every one hundred tons of increased size. That all such ships shall also be secured by iron hanging knees to the hold beams, one knee to every alternate hold beam, provided the distance of the said beams from each other does not exceed 4 feet 6 inches, and the tonnage be less than 400 tons; but if the distance exceeds 4 feet 6 inches, or the ship is 400 tons and above, then one to every hold beam. The knees to be connected with the riders or not, at the option or convenience of the owners; but if not so connected, the side arms are to

be long enough to receive at least four bolts; the whole to be securely bolted with bolts of sufficient size. In cases of refusal, the words "not fastened as per rule, section 62," will be inserted against the vessels' names.

63. All British North-American built ships, which have gone, or may go off the List of Ships of the First Description of the First Class, or which may be of an age exceeding the period for which they might have had claims to be put upon that class (whether classed or not), shall, as from time to time they come under examination, be subjected to a careful survey, to be made by one of the Surveyors to this Society;—and no further character shall be assigned them unless a survey shall be held as follows; and planking, either inside or outside, at the discretion of the Surveyors, in quantity equal to *one entire strake* fore and aft on both sides, shall be removed; to be taken out in mid-ships immediately above the turn of the Bilge, and *at such height* forward and aft as may, in their judgment, best expose the timbers of the frame to view; that a special report of the state of these timbers, and of the general state and condition of the upper deck fastenings, waterways, spirketting, planksheers, topsides, upper deck with its appendages, lower deck fastenings, wales, counter, plank and treenails outside to the water's edge, rudder, windlass, and capstan, beams and breasthooks, shall be transmitted by the Surveyors to the Committee; and on the receipt of such report the classing shall take place. If the diphthong character be then assigned, it shall be continued (subject to an annual survey) for a period not exceeding the number of years originally assigned for the ship's remaining in the First Description of the First Class; at the expiration of which the character will be discontinued, unless a similar survey and examination of the frame be again submitted to.

#### SECOND CLASS SHIPS,

64. Will comprise all ships which shall be found on survey unfit for carrying *dry* cargoes, but perfectly fit for the conveyance, *on any voyage*, of cargoes not in their nature subject to sea-damage; and they will be designated by the letter E.

65. Subject to occasional inspection, at least once in every two years, ships will continue in this class so long as their condition shall, in the opinion of the Committee, entitle them thereto.

#### THIRD CLASS SHIPS,

66. Will comprise ships which shall be found on survey fit for the conveyance, *on short voyages* (not out of Europe), of cargoes in their nature not subject to sea-damage; and they will be designated by the letter I.

67. The bottom of every ship is to be caulked once in every five years, unless wood-sheathed and felted, and then once in every seven years, except in the case of *Teak-built ships*, upon which a special survey may have been requested, and the Surveyors having ascertained, by the removal of a strake of sheathing fore and aft under the wales, and a strake at the first foothook heads, and by causing listings to be cut out at the wood's ends, that such caulking is not required, the same may then be dispensed with. If any ship shall be stripped within the periods above mentioned, her bottom is to be caulked, *if necessary*.

68. In all cases in which it shall satisfactorily appear to the Surveyors to this Society that *Doubling* of sufficient thickness (not less than two inches) properly wrought and fastened, may be allowed as a substitute for the shifting of plank, either in the wales or bottom, the Surveyor is to make a special report thereof, together with his reasons, to the Committee, who will determine thereon. No ship hereafter doubled shall be entitled to the asterisk, or any higher class, unless it shall have been ascertained that the frame is capable of securely retaining the fastenings.

#### *Iron-fastened Ships.*

69. All ships although iron-fastened (except as hereinafter mentioned) shall be classed in the same manner as copper-fastened ships, so long as they remain unsheathed with copper, provided they are, in all other respects, constructed in accordance with the Rules; but when sheathed with copper over the iron fastenings, the words "Coppered over Iron Bolts" shall be added to the character in the Register Book, and continued until the ship be thoroughly copper-fastened.

70. Ships built in India, although fastened with iron, shall be permitted to be copper-sheathed without any mark being placed in the Book, provided the bottom be felted or chunamed, and wood-sheathed, and subject to a careful examination of the iron fastenings on every occasion on which the sheathing is stripped off, for which purpose some of the bolts and nails are to be taken out of the lower part of the bottom, and to be seen by the Surveyor; but no such ship shall be permitted to continue either on the A or on the Æ class for a longer period than one-half the number of years beyond the term originally assigned for her remaining on the First Description of the First Class, unless the bottom shall have been doubled, or the whole of the iron fastenings taken out or properly secured, and the bottom refastened with bolts, or treenails, or both, including the middle line and breasthook and crutch bolts.

## SHIPS' ANCHORS, CABLES, AND STORES.

71. All vessels are required to have their masts, spars, and standing rigging in good order, and sails in sufficient number and good condition, and every ship is to be supplied with a good hempen stream-cable or tow-line of sufficient size and length, and with at least one good warp; and all vessels are to be provided with anchors of proper weight, and cables of approved quality in number and length according to the undermentioned scale:—

*Anchors.*

72. All vessels under 200 tons to have at least two bower anchors, and all vessels of 200 tons and above, to be provided with at least three bower anchors.

*Cables.*

	Tons.	Fathoms.
73. All vessels ..... under 150 to have at least 150 if chain		
— of 150 and under 250 .....	180	do.
— 250 .....	200	do.
— 350 .....	240	do.
— 500 .....	270	do.
— 700 and upwards .....	300	do.

N.B. The Surveyors shall require with all new chains supplied to ships, the production of a certificate of their having been duly tested, and of the strain applied to them: and that each length (generally consisting of about fifteen fathoms), should be marked with the amount of strain applied to them.

74. In all cases where hempen cables are used, one-sixth more in length will be required.

*Boats.*

75. All vessels under 150 tons to be provided with one good boat; and every vessel of 150 tons and above to be provided with at least two good boats.

76. The efficient state and condition of ships' anchors, cables, and stores, will be designated by the figure 1; and where the same are found insufficient in quantity, or defective in quality, by the figure 2.

## SHIPS NAVIGATED BY STEAM.

77. All sea-going vessels navigated by *Steam* shall be required to be surveyed *twice in each year*, when a character will be assigned to them, according to the report of survey as regards the classification of the hull and materials of the vessel.

78. That with respect to the boilers and machinery, the owners are required to produce to the Surveyors to this Society at the above-directed surveys, a certificate from some competent *Master Engineer*, describing their state and condition at those periods; and to which certificate it is desirable there should be added a description of the particulars of the same, as far as may be practicable, in the manner and form annexed, No. 7; to be appended to the

report of survey, and delivered to the Committee, who will thereupon insert in the Register Book the letters "M.C." denoting that the boilers and machinery have been inspected and certified to be in good order and safe working condition; but if no certificate of their condition be furnished by the Owner or Master, then no character can be assigned for the machinery.

79. *Hull*:—The Surveyors to this Society are directed to examine and report the scantling of timbers, plank, and fastenings, and to state where built, and by whom, in the same manner as directed for sailing vessels.

The following relaxation from the Rules applicable to sailing vessels will be allowed in favour of steamers.

Fir (to be either Pitch Pine, Baltic Red Fir, or American Red Pine), Larch, Hackmatack, or Juniper, may be used for upper deck beams, to an extent not exceeding *one-half* the number of beams required according to the vessel's tonnage.

The same materials may be used in the outside planking from the first foot-hook heads upwards, excepting for the wales, sheerstrakes, and planksheers.

The same materials may be likewise used in the inside planking, excepting for the bilge planks, shelf-pieces and stringers, and clamps.

Steam-vessels built in all other respects in conformity with the annexed tables shall be classed for the terms of years therein respectively prescribed, subject to the following conditions:—

That the Rule requiring a survey 'twice a year' be rigidly enforced, and that whenever the boilers are taken out, the vessel shall be subjected to a particular and special survey, in order to ascertain her general condition, and particularly the state of the Fir, or other materials herein allowed to be used.

That unless such surveys be held, the characters which may have been assigned to steam-vessels shall be struck out annually on reprinting the Register Book.

80. *Scantlings*:—The scantlings for a steam-vessel under 300 tons register including the engine room, are to be deemed sufficient, if equal to those required by the scale prescribed in the Rules of this Society for a sailing vessel of *two-thirds* of the total tonnage of such steam-vessel.

81. But for a steam-vessel *above* 300 tons register, including the engine room, the scantlings are to be equal to those required by the scale for a sailing vessel of *three-fourths* of the total tonnage of such steam-vessel.

82. *Floors*:—Where the vessel is not filled in solid to the floor-heads in the engine room, an exception will be specially made against any reduction of the scantling of the floors, which in such cases will not be permitted to be

upon the reduced scale of two-thirds or three-fourths of the dimensions for the *scantling* of sailing vessels, as before stated; but the *floors* will then be required to be equal to the dimensions set forth in the Rules for ships of the tonnage of the steam-vessel, including the engine room.

Vessels fitted with auxiliary steam power are considered to be sailing vessels (not steamers) and will not be allowed any exception as to their scantlings.

83. The Surveyors are required to report the number, size, length, fastenings, and mode of arrangement of the engine and boiler *sleepers*, and the description of timber of which they are composed, and whether diagonally trussed with wood or iron, and to what extent; the length, size, and fastenings of shelf-pieces and paddle beams; and whether the vessel be constructed with spongings, and how they are formed; and to give the length and shifting of the plank outside and inside.

84. *Materials and Stores*:—The Surveyors are to examine and report the number and description of the masts, sails, anchors, cables, hawsers, warps, and boats, as directed to be done for sailing vessels; but the anchors and cables will not be required to exceed in weight and length those of a sailing vessel of two-thirds of the total tonnage of the steam-vessel.

85. The Surveyors are to be particular in examining and reporting the condition of the boats of all vessels employed in carrying passengers.

86. In all cases in which the application of the rules must necessarily be regulated by the ship's admeasurement, the *least* tonnage (whether the result of the old or new method) is to be adopted.

87. At the termination of the several periods assigned to ships for remaining on the First Description of the First Class, they will be reduced to the Second Description designated by the diphthong *Æ*; but if during the *last year* of the period assigned to them as ships A 1, the owners of a ship shall, in consequence of her being about to proceed on a distant foreign voyage, apply to have her surveyed for continuation on the letter A, or for the Asterisk, a special survey shall be held conformably to the Rules, sections 54 or 60, as the case may be: and if from the report of such special survey, the ship shall appear to be in all respects in a sound and efficient state, such as is required by those Rules, the Committee shall, from the period at which the ship's character would terminate, continue such ship on the letter A, or assign to her the character \**Æ* in accordance with the Rules referred to.

The Committee's attention having been urgently called to the necessity of providing for the classification of vessels built of Iron, they passed a Resolution to the following effect on the 4th January, 1844:—

“That the character of A 1 will in future be granted to such ships as shall be constructed of Iron under the survey of the Surveyors to this Society, and be reported, on their completion, to have been built of good and substantial materials, and with good workmanship.

“That Iron ships, already built, upon being subject to a careful and minute survey, and being reported to be in a high state of repair and efficiency, will also be classed as above; but if not so reported, they will be allowed such other character as, on a due consideration of their respective claims, they may be found to deserve.

“That in every instance in which a character may be assigned to ships built of Iron, it must be understood that such ships must be subjected to a careful ANNUAL SURVEY, and that the continuance or otherwise of the character assigned will depend entirely upon the result of this survey.—And that vessels *not surveyed annually* will lose their character.”

The APPENDIX contains a List of the Vessels remaining of those classed by the Committee for the Liverpool Register Book, which Book was discontinued in May, 1845; also a List of the Agents to Lloyd's, and the Receivers of Droits of the Admiralty, and likewise a List of the Masters and Mates in the merchant service who have been examined and obtained certificates of qualification under the voluntary system established by the Board of Trade.

By Order of the Committee,

CHARLES GRAHAM,

*Secretary.*

No. 2, White Lion Court, Cornhill,

London, 1st July, 1848.

The Committee's attention having been urgently called to the necessity of providing for the classification of vessels built of Iron, they passed a Resolution to the following effect on the 4th January, 1844:—

"That the character of A.1 will in future be granted to such ships as shall be constructed of Iron under the survey of the Surveyors to this Society, and be reported, on their completion, to have been built of good and substantial materials, and with good workmanship.

"That Iron ships, already built, upon being subject to a careful and minute survey, and being reported to be in a high state of repair and efficiency, will also be classed as above; but if not so reported, they will be allowed such other character as, on a due consideration of their respective claims, they may be found to deserve.

"That in every instance in which a character may be assigned to ships built of Iron, it must be understood that such ships must be subjected to a careful ANNUAL SURVEY, and that the continuance or otherwise of the character assigned will depend entirely upon the result of this survey.—And that vessels not surveyed annually will lose their character."

The Appendix contains a List of the Vessels belonging to those classed by the Committee for the Liverpool Register Book, which Book was discontinued in May, 1845; also a List of the Agents to Lloyd's, and the Receivers of Droits of the Admiralty, and likewise a List of the Masters and Mates in the merchant service who have been examined and obtained certificates of qualification under the voluntary system established by the Board of Trade.

Vessels RESTORED to, or CONTINUED in the First Description of the First Class will have the number of Years for which they are restored or continued inserted separately under the number originally assigned, in the tenth column; where the term in the latter case has expired, the Letter "C" only will be placed before the figure denoting the number of Years for which Continuation had been allowed.

British North-American built vessels, opened as required by the Rules, Sec. 63, will be marked in the Register "S.S" with the number of years that may elapse before they are again opened, and the year of survey; thus—"S.S. 47—3Yrs—"

When the Rules, Sec. 63, have not been complied with, they will be marked in the Register; thus—"Not Op." and the Class omitted.

When the term "almost Rebuilt" is used, it implies large repairs, but that the Rules for Restoration have not been fully complied with.

The figures in the Tenth Column, to vessels in the **Æ** Class, imply that they were originally classed **A**, for that number of Years. The cipher 0 in this Column indicates that (from inferior construction) there were no "number of Years first assigned."

Sailing Vessels thus distinguished, "A P. 30 H." denote that they are Fitted with Auxiliary Steam Power, equal to 30 Horses.

The Figures under the Character denote either the Year, or the Month of the current Year, in which the Vessel was last surveyed.

When the character "Æ" without any date, appears in the last column, it denotes that the period assigned to the Vessel for remaining in Class "A," having expired, she has lapsed into the second description of the First Class, as per Rule, Section 87, and that this character has not been assigned from a Survey.
